

ISO 22301 (BCMS) Lead Auditor Certification Training Course

**ISO 22301
LEAD AUDITOR**

Overview

This BCMS Lead Auditor course from Koenig Solutions allows participants to gain core skills essential to audit a BCMS (Business Continuity Management System). Learn to apply a host of audit principles, techniques and procedures in order to manage an auditors team. This training aims to provide students with knowledge and expertise to effectively conduct internal/external audits that conform to the ISO 19011 and ISO 27031 standards while also being compatible with Business Continuity Management Specification BS 25999.
